

# **Broadwas and Cotheridge Parish Council**

**07.01.2026**

## **Report for Item 26/10 NDP review**

Since our last meeting the following actions are being progressed

- Regular meetings with our consultant
- We have written to local organisation cited in the document requesting an update and confirmation re accuracy of information.
- We have received an exemplar for use to form a report outlining the consultation process which is required to be a part of the submission.
- Our consultant is finalising the 2 remaining sections of the review (4. Housing Needs 5. Good Design).
- We have been in contact with Acom The organisation that was commissioned to look at the Design Code and Guide.
- Arrangements are in place with our consultant and the working group to finalise this part of the review.

Based on the above it is hoped to bring forward a draft version of the revised NDP to either the February or March meeting of the Parish Council. With a view to this being approved for sharing through consultation ( including an open parish meeting ). Prior to this the Working Group will need to meet to review content, changes and the document as a whole for it to be submitted to the Parish Council.

Once the above process is completed the review will be submitted to the Local Authority for the next stages in the process.
